

# ChildCare Sage™ Professional Child Care Center and Preschool Management Software

**Childcare Sage™** makes your center more organized, more profitable, and more professional by automating every task needed to run a child care center, including:

### Record Keeping:

It will store child, parent, and pickup person information plus photos, rates, schedules, medical histories, and daily comments. It will also store staff information, photos, schedules, and certifications.

### Billing and Payroll:

It will automatically keep track of childcare charges and staff wages, and will print or email childcare bills, staff paysheets, and staff paychecks. It also includes Tuition Direct™ ACH and Credit Card payment functionality.

### Agency Billing:

It will automatically keep track of parent co-pays and agency or state balances, and maintain separate balances for both.

### Bookkeeping:

It can track all center expenses, print vendor checks, and report center income. It also includes a bank account register, profit/loss, and general ledger functionality. Plus it integrates with Quickbooks™.

### Attendance Tracking:

It includes a flexible TimeClock program that lets parents and staff sign themselves in/out.

### Menu Planning:

It includes a graphical menu planner, production reports, and it automatically keeps track of meals consumed. It also prints a variety of meal count reports for CACFP reimbursement.

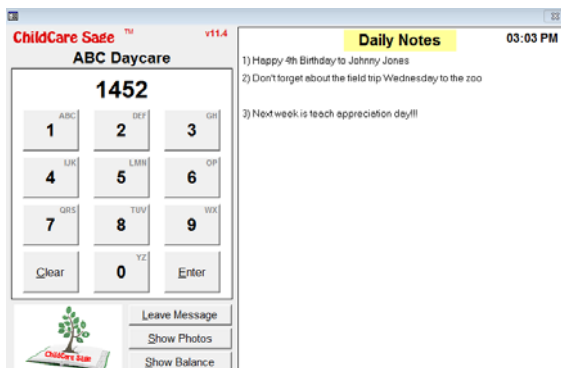

### Staying in touch with parents:

It includes an appointment scheduler, it can automatically email bills and receipts, and it can create form letters through Microsoft Word™.

### Registering Children:

It includes printable childcare forms such as registration, medical history, policies and others. Plus it includes an electronic registration form that parents can fill in, and that automatically loads in to the Childcare Sage™.

**Plus... Childcare Sage helps your center **Be Green.****

**We have included charts comparing Childcare Sage to the competition on the back of this brochure.**

**Childcare Sage™** is such a great value because we don't have modules that can double or triple the price of the software. Our software comes with every feature you need out of the box, all at a great price.

We believe that all centers should run our software. This is why we offer the Childcare Sage™ in 3 versions which include flexible limits for active families and children, whichever is better for your center.

Version	Families	Children	Staff
<b>Small Center</b>	30 and/or	50	20
<b>Medium Center</b>	60 and/or	100	40
<b>Large Center</b>	unlimited	unlimited	∞

There are **no other differences** between the versions and each version can store unlimited numbers of non-active families, children, and staff.

**Childcare Sage™** helps your center to be paperless and Green, not only to help the environment, but to also save you time and expense. Our time clock keeps you from having to print daily sign-in sheets, and our billing system can email bills and receipts to parents, so you don't have to print them out. The system also includes file cabinet functionality that lets you attach documents to child/staff records and open them at any time.

**Childcare Sage™** is Windows PC-Based, not web-based. The advantages of our system over web-based systems include:

- 1) you own the software and the ongoing costs are much less,
- 2) you can use a time clock where parents and staff can sign in/out,
- 3) you can use the system when the internet is down or slow, and
- 4) you can keep alumni children in your system without paying extra

But the biggest advantage of our system over web based systems is the overall user experience. Our system is more comprehensive, more interactive, and much more responsive than web based systems, letting you be more productive.

Childcare Sage™ offer comprehensive toll-free phone, email, online, and tutorial support to keep you working.

You can purchase our software online or call us toll-free. We always send you a Childcare Sage CD in the mail, and we give you access to our website download area.
